‘About Planet Interim’ - introduction

As an independent online platform, Planet **Interim** makes the fragmented **Interim** market more transparent for 600.000 interim professionals, their customers and mediators. The platform shows assignments from more than 35 interim sites and makes these uniformly searchable. The individual Interim vacancy’s ‘micro market’ is also made transparent via the possibility offered to customers to place unique [Premium Interim assignments](#). The website has been set up based on ten years of experience in recruitment, selection and **Interim** management. This online platform offers speed and user convenience and is very suitable for recruiting Interim professionals and finding Interim assignments. Planet **Interim** offers excellent possibilities for profiling employers and employees and products and services relevant to the target group.

1. Logging in / registering as a principal

[Logging in](#) or [registering](#) can be done via the vertical blue bar on the left of the screen or via the [link](#) in the blue drop down menu, which becomes visible when you move your mouse across the ‘Customers’ tab. You always log in with your email address (which also serves as your username) and a password.

The screenshot shows the website's navigation bar with tabs for 'Interim professionals', 'Principals', 'Advertisers', and 'About us'. The 'Principals' tab is active. Below the navigation bar, there is a vertical blue bar on the left with a 'Register or log on' link. The main content area contains a registration and login form. The registration form has a 'Register' button and a checkbox for 'Remember me'. The login form has an 'E-mailadres' field, a password field, a 'Remember me' checkbox, and a 'Login' button. There is also a 'Forgot password?' link and a 'Send password' button. A blue box highlights the 'E-mailadres' field and the 'Remember me' checkbox in the login form.

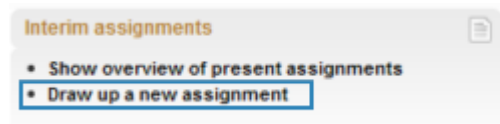

2. Account environment

You will be taken to your [account environment](#) once you have logged in. You can use your account environment to place online Interim assignments, contact your favourite Interim professionals, set up email notifications, manage your organisational details (password, contact details etc) and the flexible budget, set up and monitor your contact people and add to your organisation's profile with the placement of banners or a mini-site.

All possible functionality has been circled with a blue edge. It's important for you to add the right **contact people** per team, department or division which an account is shared with. After all, it's (usually) not the intention for one person to receive all reactions to all the placed Interim jobs and issued notifications, but that every employee/consultant can manage his/her own assignments, email notifications and Interim professionals.

3. Placing and managing assignments

You can place and manage Interim assignments from your account environment. Editing, extending speak for themselves. Please do pay attention to the fact that you will only see assignments from the selected contact person. Assignments can also be placed on Planet Interim using, for example, the technology provided by **InGoedeBanen.nl** and **Knollenstein**. This will allow you to continue to work in the usual manner and you only need to tick Planet Interim for the publication of your interim vacancies. It's always a good idea to establish contact beforehand to adjust your account in line with your needs.

3.1 [Placing a new assignment](#)

You will have realised the assignment once you have completed one clear page with fields for completion, after which you need to choose the placement period, as well as the type of assignment, i.e. a standard Interim assignment or a [Premium Interim assignment](#).

Premium assignments are transparent and use a unique security model. The lowest, highest, average and most commonly used hourly rate already offered are anonymously shown with the assignment.

Interim professionals are therefore registering their optimal rate more consciously. The permissible deviation in relation to the hourly rate indicated by you can be between -25% and +25%. Any offers outside these margins of +25 and -25% will automatically be rejected.

The status of offers is summarised and shown anonymously with every assignment. More transparency stimulates competitiveness and leads to a fairer price for *both* parties, irrespective of the market conditions.

In case of a higher offered rate, the candidate will need to demonstrate extra added value. Only motivated candidates with a well considered hourly rate will react. This prevents any unnecessary bother with candidates who are too expensive.

Premium assignments are immediately shown at the top of all relevant search results and are instantly noticeable between all the other assignments as a result of the extra large format used.

Example of 'Placing an Interim assignment' page:

Place Interim assignment

[Assignment](#) | [Activate](#)

If required, you can read [more information](#) with regard to placing an interim assignment. To place your interim assignment, please provide the desired information about your organisation and assignment on this page and desired tasks and responsibilities and a profile of suitable candidates on the next page. Finally, you can activate your assignment as a Standard or Premium assignment. The blue bar at the left displays each stage of the process.

Marked fields ● are obligatory.

When all the details have been filled in to your satisfaction, you can **activate the assignment** by clicking the button below.

[Place assignment >](#)

You can view the assignment in draft or immediately place it as a standard or premium interim vacancy. You will first need to find out about the advantages associated with a [Premium assignment](#) before making this choice.

Make sure you indicate the correct “**required assignment publication date**”. The assignment will become visible as from this date.

You continue with choosing how long you want the assignment to be shown for; the “**Required number of weeks**”. The assignment can be published and extended in blocks of two weeks. An assignment is placed for a minimum of two weeks. However, an assignment can obviously be closed before the first two weeks are up.

Once the number of weeks and the required publication date (usually the same) have been filled in, you can click on ‘calculate’, after which you will enter into an agreement for placing the assignment.

This notification with summary will subsequently follow:

You can place your assignment as a 'Standard assignment' with a highly targeted exposure at a low rate. At a slightly higher rate you can also place your assignment as a 'Premium assignment' and make use of an auction model. That way interim professionals will be shown the most recent lowest, highest and most commonly offered hourly rate. This provides more transparency and therefore a fair price with a mild reduction in price as well. This way you will be ensured of the best possible price/quality ratio.

If you click on **STOP**, you will be asked for a reason, whereby you can choose from three standard replies or an 'other', which will give you the opportunity to enter your own choice of text. If you choose STOP, the candidate's status within this assignment will then look as follows:

The interim professional will subsequently automatically receive the following email on your behalf (in English or Dutch) explaining why you did not want to proceed with the candidate:

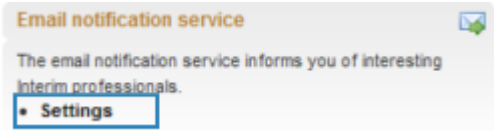

3.4 [Edit, extend or stop your interim assignment](#)

You can click on 'Show overview of current assignments' via your account environment. This is where you will see options including 'View applications', 'View assignment', 'Edit assignment', 'Extend assignment', and 'Stop assignment'. An assignment's publication period can constantly be extended by two weeks (2, 4, 6).

If you decide you no longer want to publish an assignment on Planet Interim within a current period, then do consider the fact you will be cutting short any possible remaining time owing. If you decide to activate the assignment again at a later stage, then you will once again be placing this for two, four or six weeks.

Once the assignment has 'Expired' or has been 'Terminated' by you, then you will still have two weeks of access to any possible reactions to your assignment. Do make sure you have downloaded any possible interesting candidate profiles. These options generally speak for themselves.

4. Email notification

Setting up the [email notification](#) is useful, as it ensures Interim professionals who satisfy a specific profile will automatically arrive in your (team) inbox. You can select candidates and save them as 'favourite interim professionals' and possibly establish contact with them. You can set up the notification in the next environment by indicating which sectors the candidates need to have an affinity with and in which area(s) and which function groups the candidates need to be or need to have been active. Selections can also be made based on region and rate here.

You will subsequently receive daily or weekly messages when candidates who have satisfied the profile have registered. The complete profile can be viewed, except for the name and address details and other confidential information. You won't receive the candidate name and address details and therefore the complete profile until the moment you decide you are actually interested in the candidate.

This only costs a few euros per profile and will be deducted from the account budget. It's not a free service, as Planet Interim strives for only truly interested organisations to establish contact with registered Interim professionals.

5. Finding suitable interim professionals

You can find and instantly reach Interim professionals via the [Homepage for Customers](#).

You can instantly find suitable candidates via the search field in the vertical blue bar via the following variables:

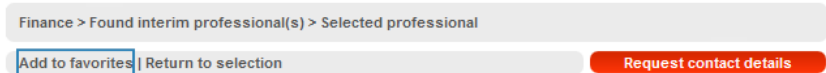

You don't need to (register and) log in until you have found candidates you are interested in and want to (be able to) add them to your favourites or download the complete CV.

You will first only be able to add candidates to your "Favourite Interim professionals".

At a later stage you will also be able to consult your favourites via your account environment and possibly still decide whether or not you want to download the name and address details and the complete CV.

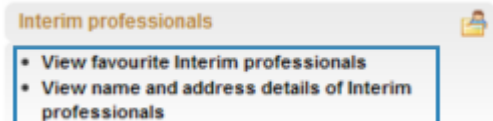

You can therefore follow your favourites completely free of charge. You can add candidates to your favourites by clicking on "Add to favourites" at the top or bottom of the profile.

6. Request candidates' contact details

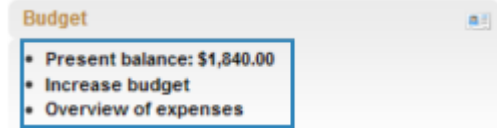

You can instantly see complete profiles (so including name and address details) from 'View applications' within the Assignments section for all those who have reacted to your assignment. This is free of charge. After all, you have already adjusted your budget for the placement of the Interim assignment.

You can find the Interim professionals you previously marked as favourites via 'View favourite interim professionals' and possibly decide whether or not you want to request the full details.

The investment per candidate is small, but not free, purely because we want to ensure only those seriously interested in the Interim professionals can establish contact with them. You will receive all the contact details of the candidate or candidates you are interested in after a small amount has been deducted from your budget. You can either print these off or download and save them as PDF's.

7. Budget management

You can use the '[Budget](#)' option in your account environment to see exactly which contact person within the account has used which budget in which period for the use and/or purchase of which services.

8. Advertising

Banners and **mini-sites** are an excellent way of profiling your organisation, (Interim) vacancy, product or service with the Interim professionals and/or customers' target group in a focussed manner. It's even possible to place a banner (which you can obtain for free with a mini-site) within communities specifically relevant to a certain specialist area, for example [HR](#), [IT](#) or [Finance](#) or one of the other [specialist areas](#).

Planet Interim works with text banners which are more integrated in the website's 'content' than logos and pictures. Text links are less quickly experienced as 'advertising' and will therefore be clicked on more often.

Mini-sites are a specific addition to your own website. You can put a large target group of independent professionals (and profile their professionals, but also products and services) under the spotlight with a specific message. A mini-site consists of three pages and will be designed with your own look & feel; so with your own logo and corporate colours.

The mini-site includes a free text banner which rotates on the homepage *and* all other pages. Plus organisations with a mini-site are included on a special overview with [important Dutch companies](#) and organisations.

If your organisation has placed Interim assignments on Planet Interim, then these will automatically be linked to the mini-site. Please click [here](#) for a description of how to apply for a mini-site online.

Hoe ziet het wensenlijstje van een ervaren interim-professional eruit? Zelfstandigheid, mooie opdrachten, van betekenis zijn, persoonlijke groei? Goed geregelde acquisitie, kennisdeling, interview?

Als **de** *uw* wensenlijstje is, dan leren we u graag kennen! Blue Carpet is de nieuwe thuisbasis voor de hoogwaardig zelfstandige professional. Geen traditioneel bureau en ook geen vrijblijvende interim-portal.

Bij Blue Carpet vindt u het bestwerkende netwerk, toegang tot interim-posities bij de top-100 bedrijven, ruimte voor ontwikkeling, kwaliteit en vernieuwing.

Bij Blue Carpet is zowel de zelfstandigheid als het samen kunnen ondernemen goed geregeld.

Wij spreken over 'Apart Together': vanuit uw eigen zelfstandigheid kunt u binnen Blue Carpet ook samen werken, ontwikkelen en verdienen.

- **Working Apart Together** is met elkaar werk genereren en excelleren. De opdrachtgever neemt rechtstreeks contact met u op en u kunt reageren op job opportunites. Via de diverse fora en blogs kunt u communiceren met en te rade gaan bij uw collega's; er is altijd wel iemand die zich bezighoudt met uw specifieke thema. Tenslotte kunt u deelnemen aan interview programma's voor verdieping en u kunt mentoring inkoop.
